spot, Gray mold, suppresses Anthracnose

Leafy vegetables
(Lettuce, Celery, Parsley, Spinach)

Alternaria leaf spot, Cercospora leaf
spot, Powdery mildew, Rust

FONTELIS® FOLIAR AND ROOT APPLICATION:

Use 10ml per gallon of water and spray onto leaves of plants. Make two applications at 10 day intervals and then alternate with another product of different Mode of Action (Preferably mix with a Protectant to prevent resistance build up). For Southern Blight drench root area.
