

VITA-FERT

ORGANIC FERTILIZER

VITA-FERT mixed cake organic fertilizer is a combined formula of natural botanical extracts from **Neem, Castor, Pongamia, Mahuwa & Tumeric** that contains plant growth stimulating factors, primarily auxins, promoting unparalleled vegetative growth, plant health and fruit yields.

Advantages by regular use of VITA-FERT:

- Acts as an Organic Fertilizer and Soil Conditioner
- 100% biodegradable
- Environmental impact is negligible and hence more predictable
- Non-Toxic in nature and environmentally friendly
- Can be applied under all conditions

VITA-FERT mixed cake organic fertilizer can be applied in:

- Field Crops
- Plantation Crops
- Vegetables
- Horticultural Crops
- Flowering Plants
- Fruits
- Potted Plants

There is a gradual loss of organic material from the soil on account of incessant use of the chemical fertilizers and thereby significant decrease in crop yields.

VITA-FERT can be an ultimate solution contributing for the much needed organic material to the soil.

100% ORGANIC
